

VOCABS TG MEETING TDWG Sept 2020

draft agenda

Thu 24 Sep - 12:00 to 13:30 UTC

1. Welcome -

- Zoom actions, use of (links to) docs, chat, etc.
- Structure of the session

2. What is the DwC Maintenance Group

- Who we are - *needs urgent update of core members - provide contact info*
- Objectives
- On-going tasks
- Task Groups

3. Recent Activities.

4. Activities planned. *List them all and then go into details for each one.*

- i. Preparation of a [Scoping Document](#).
 1. Overview
 - a. Focus on DwC
- ii. Development of a common repository for TDWG vocabularies-of-values. **PENDING**
 1. What we found out so far
 2. Demonstration of the GBIF vocabulary server (under development); current status and potential (Tim R)
 3. Requirements - tech / social
 - a. GBIF's way?
- iii. Development of a current best practice for building of TDWG vocabularies. 🛠️ *In progress* - **LINK TO *very first* DRAFT TO BE ADDED**
 1. Background - SDS, VMS
 2. What should be added from these points of view:
 - a. social
 - b. annotation - declaration of the vocab used
 3. Tech issues vs concept issues (tech is relatively easy to solve, [Steve's spreadsheet](#) - *invite people to his talk in Oct!*)
- iv. Building of at least one exemplary vocabulary. **OTHER groups work:**
 1. Example dwc:establishmentMeans, dwc:pathway and dwc:degreeOfEstablishment (<https://github.com/tdwg/dwc/issues/257>, <https://github.com/tdwg/dwc/issues/258>, <https://github.com/tdwg/dwc/issues/259>)
 2. Examples for Audubon Core? (*these may be extraneous for some of the attendees*) <https://github.com/tdwg/ac/issues/175>, https://github.com/tdwg/rs.tdwg.org/blob/subtype_cv/process/page_build_scripts/subtype.md

3. When the current best practice is ready, we would go back to those vocabs above and see if there's anything missing following the CBP.
- v. Collection and assessment of already **existing vocabularies** across the community. . . .  *In progress*
 1. Ongoing - *please add to this*
- vi. Identification of domain-specific groups that may be involved in the preparation of vocabularies.  *In progress*
 1. *please raise your hand*
- vii. In-depth evaluation of the current state of data shared through aggregators in relation to the use of controlled values. . . .  *In progress* -should update numbers for this from last snapshot. Latest data in the Q&A repo are from 2 yrs ago...
<https://github.com/tdwg/dwc-qa/tree/master/data>
- viii. Preparation of a **list of vocabularies needed** for terms of the Darwin Core standard.

5. Timeline planned - *so delayed! Just mention and propose modification*

6. Big points to discuss

- How to move forward, participation - *update members, set regular meetings*
- New timeline
- Review of DRAFT CBP
- Approaches: *NOTE this goes beyond the actual tasks of this TG and into actually building vocabs. - Poll?*
 - i. From the data up, **GBIF's way**:
 1. make sure we represent what is out there
 2. refine after the fact
 - ii. From the experts down
 1. build refined vocab
 2. adjust data after

Advantages / Disadvantages, mixed model

- Repositories for vocabs
- DwC vs other vocabs *-no differences in shape, but probably in social / maintenance decisions*
