

Monday, 16 December 2024

Attendees

- John Wieczorek
- Tim Robertson
- Peter Desmet
- Markus Döring
- Steve Baskauf
- Kate Ingenloff

Not attending

- Paula Zermoglio
- Quentin Groom

Agenda and notes

1. Summary of [TDWG Executive Meeting Presentation 2024-11-26](#)
2. Discuss the topics from the presentation that will affect the Maintenance Group.
 1. A **documented semantic model for Darwin Core**
 - a. DwC classes and the recognized explicit relationships (DwCA v2?).
 - b. Decide at what level and with what technology to document this (white paper?, owl ontology?, something(s) in between).
 2. **New class/ property terms and changes to existing terms** to support 1.
 - a. Formalize property assignments to classes.
 - b. Include vocabulary declaration.
 3. **Vocabularies** to support 2.
 - a. Event.eventClass
 - b. Occurrence.occurrenceStatus
 - c. SurveyTarget.includeOrExclude
 - d. Potentially "Common Targets"
 4. [Frictionless data schemas](#) as an implementation of 1, 2, and 3.
 5. **Documented clarity on DwC-A**
 - a. Version 1 (currently DwC Text Guidelines), support commitment.
 - b. Version 2 (brand as evolution of DwC-A), thorough documentation with examples from all use cases.

6. A scheduled **DwC release model**
 - a. every 4 months? (DwC MG maintains standard package and table schemas in addition to vocabularies)
7. **Renew the DwC Maintenance Group**
 - a. Possible new members: Jörg Holetschek, David Fichtmüller, Cecilie Svenningsen, Niels Klazenga, Christian Bölling, Pieter Huybrechts, Ben Norton, Kit Lewers
8. Task Groups?
9. GBIF Commitment

4. Timeline

1. First DwC public review to include only existing issues, nothing from DwCA v2
2. [DwCA v2 initial testing](#)
3. DwCA v2 public testing
 - a. Documentation
4. DwCA v2 proposal and public review
5. Scheduled releases after DwCA v2 ratification

5. Discuss how maintenance might be streamlined, starting with an explanation of how releases currently work.
